

Implement with impact Accelerate Transformation with Microsoft Cloud and AI technologies through Adoption and Change Management

Course Overview

This 3-day workshop equips change leaders, IT strategists, and adoption specialists with the tools and techniques to drive successful rollouts of Microsoft 365, Microsoft Copilot, and Azure workloads. Learn how to combine Microsoft's Service Adoption Framework, Role-Based Guides, and Security Adoption Pathways with the Prosci ADKAR® model to lead organizational transformation. Includes practical strategies for communications, training, resistance management, and reinforcement.

Level - Intermediate
